

### GLORIA

#### Special pressure sprayer SOX5

The pressurized sprayer SOX 5 is configured for the dispersion of acid and alkaline sprayed media. Owing to the acid resistant materials and components the devices are applicable with versatility: for cleaning of sanitary facilities, washing stations, open-air and indoor swimming pools, for the removal of cement residues on tiles and clinkers or in pest control and control of epidemics.

<b>Appliance designation</b>	Special pressure sprayer SOX 5
<b>EAN-number</b>	404 643 600 0159
<b>Filling capacity</b>	5 l
<b>Ref. No.</b>	000085.4000
<b>Max. operating pressure</b>	3 bar
<b>Material</b>	Appliance consists of hard polyethylene and polypropylene, hose made from strengthened PVC, plastic spray lance
<b>Safety valve</b>	no
<b>Pressure gauge</b>	no
<b>Weight</b>	approx. 1.75 kg
<b>Carrying system</b>	portable on shoulder
<b>Nozzle</b>	flat jet nozzle
<b>Spraying angle</b>	80°
<b>TÜV and GS tested</b>	yes
<b>Max. temperature</b>	+ 40°C
<b>Other equipment</b>	<ul style="list-style-type: none"> <li>• viton gaskets</li> <li>• hose made of reinforced PVC</li> <li>• plastic spray lance with acid resistant flat fan spray nozzle</li> <li>• lance extension 0.5m</li> </ul>
<b>Miscellaneous</b>	<p>The following substances have been tested and can be used for distribution:</p> <ol style="list-style-type: none"> <li>1. Nitric acid up to 10%</li> <li>2. Acetic acid up to 10%</li> <li>3. Prop ionic acid up to 10%</li> <li>4. Hydrochloric acid up to 10%</li> <li>5. Phosphoric acid up to 30%</li> <li>6. Sulphuric acid up to 30%</li> <li>7. Caustic potash up to 20%</li> <li>8. Caustic soda up to 20%</li> </ol> <p>The specifications do not apply for mixtures!</p>
